### Portal Login is working ?

**Portal is working now!!!**

Please note: If you have been using a "favorite" link to get to the portal you will have to redo the link. The direct link to the portal page has been changed. You should click on the portal link that is off of our main web site [www.asun.edu](http://www.asun.edu) to get the correct link. Then you can save that into your favorites.

FYI: The Computer Service department is working on the issue with the Forums not having a reply button

# Document Preparation

Scanning or converting each document to PDF allows users of all computers to have access to the files

# Top three technological tips

- Find someone who understands network security
- Build a team that works together and have a knowledge base to cover the technical, and evaluation processes
- Use the technology and don't let the technology use you

# Website Usage Since Accreditation

- The syllabi and assignments are shared among the other campuses
- The website allows us to provide copies of MOU's and other documents back to schools

# Advantages of Web-Based Application

- Easy to send to evaluators
- Easy to update and allow evaluators immediate response to questions
- The evaluation process could be tracked
- Access to the material could be limited by password protection
