

**OADEP Board Meeting
Friday, March 17, 2023
11:00 am – 12:30 pm**

Agenda:

Welcome & Introductions
In Attendance:

ODHE/ODE Updates

Becki- Testimony has started for HB, there is general assembly buy in. Matriculation data 78% of students matriculated to a 2 or 4 year. What we do not see is the students who matriculate to the military or students with a credential but no interest in a degree. Trying to determine how to access this data in the report next year. Should see expansion in certificates.

A&P will be removed from OT36 at most colleges, are colleges aware? This will cause issues for sciences degrees/health degrees, etc. because they will need the OT 36 and the degree requirements

Becki is going to reach out to her boss to try and get more information. She will work with Cal and Nadia on compiling thoughts around the ask/inquiring.

Homeschool students who take classes at a high school, do they apply for funding or do we bill the high school? Students who attend a boarding school, etc. Becki is seeing these items pop up the student would need to apply for funding. Tom suggests looking at is a wherever the child is graduating from is where the funding should come from. Homeschool transcript, what do we do when we don't have one? Suggested to make them create one to use for GPA and courses completed.

Carly's recording received a shoutout for how great they are. Information is spliced out and helpful for families. Updated home school is going to be out soon.

Tom does not think our unrepresented students are as low as we see because many students do not put in their race on the application.

Elections

Conference 2023

Discussions and volunteers, going to schedule some meetings in April. Michelle is going to look at scheduling these meetings. Contracts are signed. How at the Moon is offering vouchers for free entry for conference attendees. Thoughts? Maybe a good offer for the retreat or conference. We will follow up to look at the voucher options. Penny can put vouchers in the packet.

Webinars

Thank you for all for participating. Several requests for the recording, look at it for future topic as well. Next month is home school, non public and career tech students in CCP. This is our last annual webinar for the year. Board meeting and annual meeting are April 20th and 21st, we will check with Michelle if they are necessary to have one day apart.

Admin Updates

Penny is checking to see if we qualify for tax exempt which will save us money for conference, etc. Penny attended a meeting in March with Superintendents lead by ODHE talking about pathways for students/non traditional and get them interested in the field of education. Retreat is ready to go, Caity had question about who attends retreat, old and new. It was said just new board.

Discussion

Sharon is working with Miranda to update resource room. Penny confirmed we are not meeting both the 20th and 21st, just the 20th.

Next Meeting: Annual Meeting, April 20, 3:00 pm
Board Meeting, April 21, 11:00 am (?)
