 - If passed this session, the earliest it could go in place would be February 2024
 - However, ODHE is working to quill the 2024 implementation. They are seeking to push it to 2025. (Important since all the informational meeting for the 2024-25 year by law are to be done by mid February)
- 3365.04 Compliance Auditing
 - The Auditor of State Office is charging HS to show how they are compliant with the CCP law via a survey.
 - They will use things such as EMIS information and School website
 - They originally requested compliance information on HS from Higher Ed. institutions as well.
 - It now appears they understand that this is not information that the Higher Ed. institutions can provide.
 - A Check list has been created to help secondary districts with the audit. This checklist should now be on the ODHE website
 - This is also a check list being created for higher ed. Institutions to help with their audit.
- Higher Ed. Pathway Waiver

 - Materials are being created, by ODHE, for this new pathway process

- Innovation waiver vs Business Pathway
 - Innovation waiver is between a secondary school and an institution of higher learning

 - The business pathway is specific to a degree or credential that is in high demand in the workforce.
 - Both are seeking to work with underrepresented students, students who may be otherwise ineligible for CCP., both are academic, and working toward a career development
- ODDEX

 - ODDEX says the data will be released “soon”
 - “Soon” is currently undefined.
 - The 45 day window will begin once the data is released
